

**2020 Dietary Guidelines Advisory Committee
Draft Advisory Report Meeting: June 17, 2020
Details to Obtain Continuing Professional Education Credits**

The *2020-2025 Dietary Guidelines for Americans* development process is under way. The Departments of Agriculture and Health and Human Services appointed 20 nationally recognized experts to serve on the 2020 Dietary Guidelines Advisory Committee. The Committee has completed its scientific review and will discuss their draft conclusions and advice to the Departments as they finalize their advisory report.

The following information includes the event details provided to Registered Nutrition Professionals to obtain Continuing Professional Education credits for attending the Advisory Committee's Draft Report Meeting. The meeting will be available to attend by webcast. The agenda will be posted to the Draft Advisory Report Meeting page on DietaryGuidelines.gov a day or two before the meeting. All other meeting materials will be available on this page after the meeting concludes. Please allow at least one month for this to occur.

Meeting Description: The meeting will include updates on the Committee's draft conclusion statements and discussion on its draft advisory report. Organized by life stage, the Committee's draft advisory report summarizes its evidence review and provides overarching advice to the Departments based on the consideration of all of its conclusions statements. The Committee will finalize its report based on the discussion at the meeting and submit its final report to the Secretaries of USDA and HHS at the end of June 2020.

Credit Hours: Up to 7 credit hours are being offered for this meeting. If you are unable to view the entire meeting, you can obtain 1 credit hour for each hour of discussion that you viewed.

Program Objectives: At the conclusion of this event, the participant will be able to:

- Describe the Committee's draft conclusion statements and assess its emerging advice to the Departments based on the state of the science on the following topic areas...
 - ...dietary intake for children from birth to 24 months.
 - ...pregnancy and lactation and maternal and infant outcomes.
 - ...dietary fats and seafood and certain health outcomes.
 - ...beverages and added sugars and certain health outcomes.
 - ...dietary patterns and certain health outcomes.
 - ...the frequency of eating and certain health outcomes.
- Describe the Committee's findings on the evaluation of current dietary intakes of Americans.
