

# Food Sources of Vitamin D

Getting enough vitamin D is important for strong bones and overall health. Eating a variety of nutrient-dense foods from all food groups can help you meet your needs.

## Did you know that you can get vitamin D from many different food groups?

Here are a few examples:

Some seafood, such as rainbow trout, salmon, or canned light tuna

Low-fat or fat-free milk, yogurt, or kefir, including lactose-free versions and fortified soy milk

Some mushrooms

Fortified 100% orange juice

## Looking for more sources of vitamin D to enjoy?

Use this list to identify foods and drinks that fit your culture and lifestyle. It can be hard to get enough vitamin D from foods and drinks that contain it naturally. Consider choosing some foods and drinks fortified with vitamin D as part of a healthy eating routine and talk to your healthcare provider about whether you need a supplement.

Your body can also make vitamin D from sunlight. Learn how to practice sun safety at: [https://www.cdc.gov/cancer/skin/basic\\_info/sun-safety.htm](https://www.cdc.gov/cancer/skin/basic_info/sun-safety.htm).

## Nutrient-dense Food and Beverage Sources of Vitamin D

FOOD	SMALLER PORTION	VITAMIN D (IU)	PLAN TO TRY	MY FAVORITES
<b>Protein Foods</b>				
Rainbow trout, freshwater	1 ounce	215		
Salmon (various)	1 ounce	128-190		
Light tuna, canned	1 ounce	77		
Herring	1 ounce	61		
Sardines, canned	1 ounce	55		
Tilapia	1 ounce	42		
Flounder	1 ounce	39		

FOOD	SMALLER PORTION	VITAMIN D (IU)	PLAN TO TRY	MY FAVORITES
<b>Dairy and Fortified Soy Alternatives</b>				
Soy beverage (soy milk), unsweetened	1/2 cup	60		
Milk, low fat (1%)	1/2 cup	59		
Yogurt, plain, nonfat	4 ounces	58		
Yogurt, plain, low fat	4 ounces	58		
Milk, fat free (skim)	1/2 cup	58		
Kefir, plain, low fat	1/2 cup	50		
Cheese, American, low fat or fat free, fortified	1/2 ounce	43		
<b>Vegetables</b>				
Mushrooms, raw (various)*	1/2 cup	0-1,110		
<b>Fruits</b>				
Orange juice, 100%, fortified	1/2 cup	50		
<b>Other Sources</b>				
Almond beverage (almond milk), unsweetened, fortified	1/2 cup	54		
Rice beverage (rice milk), unsweetened, fortified	1/2 cup	51		

**Notes:**

\* Mushrooms provide variable amounts of vitamin D. Some mushrooms available on the market have been treated with UV light to increase their levels of vitamin D.

All foods listed are assumed to be in nutrient-dense forms: lean or low-fat and prepared with minimal or no added sugars, saturated fat, and sodium.

Some fortified foods and beverages are included. Other fortified options may exist on the market, but not all fortified foods are nutrient-dense. For example, some foods with added sugars may be fortified and would not be examples in the lists provided here.

Some foods or beverages are not appropriate for all ages, particularly young children for whom some foods could be a choking hazard.

Portions listed are not necessarily recommended serving sizes.

Seafood varieties include "Best Choices" from the FDA/EPA joint "Advice About Eating Fish" available at [FDA.gov/fishadvice](https://www.fda.gov/fishadvice).
